

Pixie Dust Merchandising Ltd

We are a growing UK based Merchandising agency actively looking to bolster our already talented and experienced team of Tactical Merchandisers.

Job Title: Tactical Merchandiser

Some desirable experience;

- General Retail Merchandising
- Retail planogram implementation
- Product Sampling
- Retail Point-of-Sale implementation
- Auditing
- Mystery Shopping
- Product Sampling
- Greeting Card Merchandising

Skills required;

- Able to work independently
- Good time management; able to meet dead-lines
- Able to form strong professional relationships
- Confident interacting with the public
- Exacting standards
- Reliable
- Diligence
- Organised
- Computer literate; with access to a home broadband connection and printer

An additional advantage would be access to a car and extensive knowledge of your local and wider area.

To apply you will need to visit our website; **www.pixiedustmerchandising.co.uk**

- Click on the '**JOIN THE TEAM**' tab and then the '**JOIN US**' button.
- Register using your e-mail address and a password that you choose.
- Now fully complete each of the fields on screen, and once complete, submit your application for approval.

Once your application has been received we will aim to let you know, by e-mail, if you have been successful or not within 21 working days. In this time, we may contact you for some additional information to support your application including reference details of current or previous employment. *We will not discuss any individual applications over the phone or by e-mail.*

Please note that this is a 'Tactical' position on a zero-hours basis, that makes no guarantee of work or a 'set' number of hours each week. If approved to join our database, you will be contacted as and when work becomes available in your local or wider area.

This advert is posted nationally and re-occurs each month in our continued drive to strengthen and expand our Tactical team of available Merchandisers across the United Kingdom.

We look forward to hearing from you!
